

INTERNATIONAL TRADE

2 YEARS - CAREER PROGRAM

ABOUT THE PROGRAM

International Trade is a two-year certificate AEC career program that prepares students for a wide variety of professional careers in the international trade, logistics, and/or import/export industries.

In this program, students will learn about the international trade industry here in Canada, and also around the world as well as will be exposed to the fundamental knowledge of this industry, which will allow them to become qualified professionals who possess a unique skill set.

WHAT WILL THIS PROGRAM GIVE ME?

This program focuses primarily on:

- International Business Communication
- Developing skills in logistical management:
- Import / Export
- Understanding Customs Law
- Developing Skills in Negotiation
- Developing Skills in Financial Planning

CAREER PROSPECTS

- An export consultant
- An analyst for foreign markets
- A trader
- An employee for the office of a commissioner for export
- An employee for a professional association
- An employee for a non-governmental organization (NGO)

CURRENT STATUS

In recent decades, worldwide trade has facilitated the globalization and expansion of businesses. In the 2000s, companies joined forces, merged, and innovated. Today, trade has taken on an entirely new meaning. Through the help of the federal and provincial governments, and other support agencies, businesses are now expanding their goods and services to international clients. Various measures, both in terms of exploration, visibility and funding assist them in doing so.
